

Features

The specification covers the requirements for RCA JACKS intended for audio, video, TV, and computer related products including LCD monitor, multi-media speaker, network audio/video systems.

Specifications

Withstanding voltage: 500VAC 60Hz for 1 minute

Contact resistance: 30mΩ Max. at AC 100mA Max. 1KHz

Insulation resistance: 100MΩ Min. (initial)

Insertion force: 3.0kgs Max. ; Extraction force: 0.4kgs Min.

Lift test: 150 cycles unloading(20 ~ 30 cycles per minute)

Humidity test is kept in 40 ± 2°C, 90 ~ 95%(RH) for 48 hours.

Materials

- Shell: Steel
- Bushing: Brass/Steel
- Terminal: Brass/Copper alloy
- Housing: Thermoplastic
